

Noticeboard

Noticeboard has been specifically designed for a variety of pinboard and display applications. The superior pin retention and performance properties of the range, including the exceptional colour choice, make it the premium choice for all noticeboard and presentation applications. The unrivalled performance of Noticeboard means that it is often copied but never bettered.

We offer a selection of inspiring colours that are unsurpassed in depth and richness. An additional selection of colours are available from our standard Front Runner® and Prelude® ranges. A minimum order requirements of 48 lineal metres applies.

The ribbed texture of Front Runner® and the random velour finish of Prelude® are designed to coordinate and have a "mix and match" ability, or they may be used individually.
